

1-metre USB-A to USB-C data and charging cable

SKU: TECABLEMICROC10K

Simultaneous charging and data transfers

Versatile and reliable

This 1-metre **USB-A to USB-C cable** is the ideal solution for anyone looking for a **versatile** cable that offers fast charging and reliable data transfers between devices. The **USB-C connector** is particularly practical: it is easy to insert **either way up**. It is compatible with smartphones, tablets, laptops, digital cameras and many other devices that support these types of connectors. A practical cable to suit every situation.

To charge all your devices with USB-C ports

This USB-A to USB-C cable allows you to charge your devices quickly and efficiently. Plug the USB-A cable into a charger or power bank with a dedicated port, then plug the USB-C connector into your device's charging port: **it will begin charging automatically**.

Fast data transfers

In addition to charging, the USB-A to USB-C cable also ensures fast data transfers. With a data transfer rate of up to **480 Mbps**, you can move large files between devices with ease. This cable is therefore ideal for users who want to sync photos, videos, documents and more between different devices. When you connect your device to a laptop or PC, **it will charge while you transfer files**.

Anti-tangle and ideal for your desk

At 1 metre long, this cable offers the ideal balance between flexibility and convenience. It is long enough to let you use your devices while charging or transferring data, but not so long that it is cumbersome or difficult to manage. The perfect accessory for the **office** and at **home**. The cable's anti-tangle finish allows you to store it wherever and however you want **without it tying itself in knots**: just pack it away and take it on your **travels**.
